Leica Microsystems extends online shopping experience to customers in Germany

Convenient access to tailored microscopy solutions via AI-powered search

20 November 2025, Wetzlar, Germany – Leica Microsystems, a Danaher company and a leading provider of microscopy and scientific solutions, has extended its online shopping experience in Germany. This marks a special milestone as Leica Microsystems is headquartered in Germany and customers now have direct access to a modern, personalized digital store designed to simplify the search for tailored microscopy solutions. Following successful launches in the USA and UK, the platform now brings the same convenience and customization to German customers. They can explore different options, compare features, check prices, and either add items to their order or request an online quote – all in one place. Plus, customers in Germany benefit from free shipping on all online orders*.

“We are proud to bring our online shopping experience to Germany, where Leica Microsystems was founded over 175 years ago,” said Walid Beylouni, Senior Vice President Global Commercial Operations at Leica Microsystems. “This launch is especially meaningful, and we are excited to offer our German customers a seamless and intuitive way to find the right microscopy solution for their needs.”

Channel partners of Leica Microsystems in Germany will also benefit from the introduction of the catalogue which includes detailed product information, including images and specifications, and automated catalogue maintenance for their own online stores. By ensuring channel partners have access to accurate and up-to-date information, they can showcase products with confidence.

This latest expansion of its online shopping experience in Germany ensures that Leica Microsystems is committed to delivering a customer-first user experience and supporting its valued customers and partners.
